LINE FEATURES

Vortens has established itself as a premier line of sanitary ware products, combining affordability with superior design features and reliable performance. Today, Vortens offers a complete line of residential plumbing fixtures and light commercial products - all with the attention to powerful performance and that's worthy of its name, and true to its heritage. Our commitment to engineering and manufacturing superiority is the same as it was in 1890. We believed then that the highest quality products require only the best manufacturing facilities and that belief is even stronger today. And it's Vortens that today designs and manufactures a creative variety of toilets, lavatories, bidets and urinals that set the pace for forward-thinking style, innovation and performance. It's a continuing commitment to staying ahead that we stand behind.
